

Need A Speaker?

Tylie's keynote calendar for 2017 is filling up fast. If you plan to book her for your upcoming event, time is running out.

THE POWER OF CHOICE (Based upon Tylie's upcoming book release, *The Power of Choice*) - In this dynamic presentation, Tylie outlines how life is fully dictated by the choices we make in any given moment, how renewing one's mind can influence the choice-making process, and how learning to master the power of choice can dramatically alter the course of one's life for the better.

ATTITUDE EQUALS ALTITUDE - Back by popular demand, this powerful session highlights the vast importance of attitude in day-to-day living. Tylie uses both humor and history to turn her own story into actionable, life-changing lessons that anyone can use to find the 'happy' in their living, no matter what they face. "Carry the watermelon" all the way to the life you've always wanted. This was 2016's most popular presentation, and shows no signs of slowing down

G.I.D. FOR HOT MESSSES - Based on the popular GID program (open enrollment for 2017 starts Jan. 1) - This presentation is best served in two to three sessions, but can be accomplished in one if needed. The presentation focuses on SUSTAINABLE, guilt-free, stress-free organizing, task management, and productivity. This is the first year Tylie is offering this presentation as a keynote option. The program has proven extremely popular for busy people in all walks of life. If your group is feeling overwhelmed by life's "crap," and you want to learn how to get it all done and keep it all straight, then it might be time to join the Hot Mess tribe.
